# BILL SYAHPUTRA

New York, NY | billcsyahputra@gmail.com | linkedin.com/in/bill-syahputra | github.com/billsyah | billsyah.com

## EXPERIENCE

**Network Engineer - Internship**

**Oakland University, Rochester Hills, Michigan** **September 2023 - May 2025**

- Installing and configuring new network switches, ethernet cables, fiber optics and SFPs, and Access Points to replace and modernize equipment.
- Maintaining connectivity of about 500+ IoT devices within university peripherals resulting in reliable, efficient, and seamless data exchange across the network.
- Collaborating with the school network engineers on advanced tasks, such as network routing, upscale data center topology and diagrams, and transitioning Oakland University's WiFi from WiFi 5 to WiFi 6E increasing the data transmission speed average from 250Mbps to 700Mbps.

## PROJECTS

**Hey Kevin — Backend Developer (Capstone Project)**

- Developed the backend for a humorous object recognition mobile app that lets users take a picture, identifies the object, and generates witty AI-based descriptions.
- Built backend microservices with **FastAPI** and **MobileSAM** for image segmentation, containerized using **Docker** and orchestrated via **docker-compose**.
- Configured an **NGINX reverse proxy** on **DigitalOcean** to securely route API requests and integrated **Anthropic Claude** for object detection and description generation.

**BillSyah.com — Portfolio Website**

- Developed a personal portfolio website to showcase projects and technical skills using Vite for a fast and optimized development environment
- Deployed the site on a DigitalOcean Droplet and configured NGINX for secure reverse proxy and static file serving.

**Firebase Authentication System**

- Created a responsive web application that allows users to log in securely using OAuth authentication.
- Utilized **Firebase Authentication** for backend login management and implemented a React + Bootstrap frontend for a seamless user experience.
- Applied best practices for OAuth integration to ensure secure user sessions and smooth navigation.

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, Java, C++, SQL, HTML, CSS
**Frameworks & Libraries:** FastAPI, Node.js, Express.js, React, React Native, Flutter, Bootstrap
**Databases:** MySQL, MongoDB, PostgreSQL, Firebase
**Cloud & DevOps:** Docker, Kubernetes, NGINX, Cloud services (AWS, DigitalOcean)
**APIs & Tools:** REST API Development, API Integration, OAuth, Git, Github, Postman, Webpack

## CERTIFICATIONS

**AWS Cloud Practitioner** **Sep 2025**

## EDUCATION

**BS in Computer Science - Focus on full-stack and cloud development** **May 2025**
Oakland University • Rochester Hills, MI • 3.73
